

Partners in Health Network **Community Access Program**

**A program that reduces the cost
of health care for the uninsured.**

Requirements

- Age 19-64
- You must be a West Virginia resident (lived in the state for at least 90 days).
- You cannot have health insurance, including Medicare or Medicaid.
- A net worth of \$50,000 or less. This is a total value of house, cars and savings, minus any loans you owe.
- Household income 200% at or below the federal poverty level (chart is on application).
- Must apply every year at your CAP Community Health Center. When applying with CAP, you will need to have pay stubs, W-2 Forms, tax forms or other items showing income and how much property you own.

Services

- Reduced-cost primary care by a health care provider at CAP Community Health Centers. Fees at these Community Health Centers are reduced based on a sliding fee scale.
- Referral for out patient hospital services to CAMC and Boone Memorial Hospital facilities, by being approved with your CAP card for charity care services through its charity care program. This means each time you visit a participating CAP hospital for outpatient services you do not have to qualify again, just show your CAP card. (In-patient services will require a separate application)
- Pharmacy 340B care at participating Community Health Centers that offer such services, based on the sliding fee scale.
- All CAP enrolled cardholders will automatically be eligible to apply for the WVRx drug program. The WVRx program provides free mail-order prescriptions. Only name brand drugs can be filled. No generics or controlled substances are available.

Because a CAP eligible patient also meets the criteria for WVRx, they are automatically eligible for that program as well. A separate form needs to be completed to become enrolled with WVRx. Eligibility requirements are as follows.

- You live in West Virginia
- Your yearly income is 200% or less of the Federal Poverty Level
- You do not receive government assistance such as Medicaid, Medicare Part D, or Veteran's Benefits
- You don't have prescription drug coverage
- You can provide a photo ID

Restrictions

- CAP **does not cover** care at Urgent Care facilities operated by CAMC or Health Plus. Patients will be registered as self-pay and will be required to pay in full prior to being seen (provided the visit was not an emergency and patient was triaged first.) You always have the option of applying for regular CAMC and/or IHCPI Charity Care by filling out a charity care application.
- CAP does not cover specialists' care.
- Children are not eligible for the CAP program. If you have a child, and have an income 250% at or below the federal poverty level your kids may qualify for WV Medicaid or the Children's Health Insurance Program (CHIP).
- If at any time during your enrollment with CAP you begin to receive insurance or other medical coverage, such as Medicaid or Medicare, your card is no longer valid.

Definition of Income

Income is money earned before taxes (gross income), self-employment income, alimony, child support, retirement, Social Security (SSI), unemployment, Worker's Compensation, interest from savings, dividends from investments, rental income, seasonal employment income, welfare assistance, cash value of food Stamps, financial assistance from a family member, or any other source of money your family uses to live on.

If you are self-employed, we will need a copy of your 1040, with schedule C, for the last taxable year.

Enrollment Process

CAP

1. Fill out an application at a CAP Community Health Center.
2. The Community Health Center will check your income/asset levels.
3. If approved, you will be given a CAP card.
4. A letter of welcome is sent to the CAP member, including information on CAP as well as program guidelines.
5. You must go to your regular CAP Community Health Center to reapply for CAP every year.

WVRx

1. Call for an enrollment packet at 1 877 388-9879; 2) Complete enrollment papers and mail to WVRx; 3) Mail prescriptions to WVRx. Only brand name drugs. (No generic or no controlled substances); 4). Patient will receive notice of eligibility in the mail; 5). Prescriptions will be sent to patient or doctor by mail; 6) Patient will receive notice of re-enrollment each year.

(304) 388-2736

Boone Memorial Hospital
701 Madison Avenue
Madison, WV
(304) 369-1230

FAQ's

Is this insurance?

No, CAP was not designed to provide individuals with health insurance coverage. It is a program that approves you for discounts to health care, based on a sliding fee scale at participating CAP Community Health Centers. You are also approved for care at CAMC hospitals for one year, based on the hospitals' charity care services.

How do I qualify for CAP?

You qualify for CAP if you have no insurance, including Medicaid or Medicare; are between the ages of 19 and 64; have a net worth of \$50,000 or less and have a household income that is 200% at or below the poverty level. Also, you must be a current West Virginia resident.

Can my child be enrolled in CAP?

No, CAP enrollees must be in the 19-64-age range. If you have a child without insurance and they are 250% at or below the poverty level, they may qualify for West Virginia Medicaid or the Children's Health Insurance Program (CHIP).

What happens if I receive a form of health care insurance coverage while I am enrolled in CAP?

If at any point during your enrollment in CAP you receive health care coverage – insurance, Medicare, Medicaid – your membership and CAP card will no longer be valid. However, if your spouse is not covered, they may still be eligible for CAP.

How often do I have to reapply for CAP?

You must reapply for CAP every year at your CAP Community Health Center. There is an expiration date on your card that tells you when you need to reapply. Once your CAP card expires, you are no longer able to use it.

Where can I learn more about CAP?

To learn more about CAP, visit the Partners in Health Network, Inc. (PIHN) Web site at www.pihn.org or contact your local participating CAP Community Health Center.
